MROOP-P

Memorandum
No. 1125-2-6

28 November 1983

Plant
OPERATING LOG FOR FLOATING PLANT

1. Purpose. This memorandum prescribes policies and procedures covering the use of ENG Form 2198, Operating Log, for civil owned floating plant.
2. Applicability. This memorandum applies to all civil works operating floating plant in the Omaha District.
3. General. All floating plant in the following categories shall maintain an Operating Log, ENG Form 2198, in accordance with ER 1125-2-304:
 - a. All tenders, launches, and inspection boats.
 - b. Class II patrol boats.
 - c. Dredges.
 - d. Derrick boats.
4. Operating Log. ENG Form 2198 is a hard-bound log book, and will be kept up-to-date by the operator of the floating plant. The operator will complete all columns of this log. Engine hour readings, where applicable, will be recorded at the start of and at the end of the shift, and will be logged under the column entitled "ENTRIES." Miles run and all other information pertaining to the operation or mission of the plant will be logged under the same column.
5. Responsibilities. Area Engineers and Project Managers of separate installations and activities with floating plant under their jurisdiction have the responsibility of bringing this memorandum to the attention of all operators and to ensure that the provisions set forth in this publication are met.
